

MAGNETIC SIGN CARE AND MAINTENANCE

- A. It is recommended that you remove your magnetics once weekly for cleaning. Warm soap and water is all that is needed. Be sure the signs are completely dry before replacing them.
- B. Always install signs on a flat space. For example: Don't put signs over a molding on a vehicle.
- C. When removing signs and storing them, always lay on a flat surface or else you run the risk of damaging them.
